Wire, Connectors, Labeling Clinic

Tuesday, July 20, 2010 | 8:30am – 1:30pm

Join these industry experts for an introduction to their latest product innovations that will help you with everyday solutions.

REMEO

Remeo world class wire and fiber optic cabling solutions are engineered with the installer in mind. Our experts are here to teach you how to anticipate your clients' wiring needs and to ensure that their networks are up and running at top speeds. Learn how you can become a certified REMPRO installer while offering your customers a 25 year warranty on their infrastructure installations. Count on Remeo to be there for your business with quality cabling solutions.

DYMO

Are you utilizing your valuable time efficiently on all installations? Would saving an hour of labor and materials be of interest to you? At DYMO, we know that time is money! Join us as we show you how to make the most of your precious installation time while raising the overall quality of your workmanship. Don't miss the opportunity to learn more about DYMO, and you might walk away with a FREE printer for attending our event.

GEM

Learn how to terminate twist-on, crimp-on, crimp-crimp and compression connectors. Provide your customers with perfect coax cable connections and excellent electrical performance. This informative hands-on class will teach you how to select the right connectors, crimps and strip tools for your installs while maximizing your profits. We'll also review cable assembly procedures, strip dimensions and the proper way of measuring connectors to fit your coax cables.
